

**Wayne Boudreau presents grant to Christine Piltz from Parkland**

**\$5000 to Parkland Community Association for a picnic shelter at Kosta's Cove on 10 Mile Lake**

### **New Shelter at Kosta's Cover**

Funded in part by the Corbett and Warden Family Funds, Parkland Community Association received \$5000 towards a shelter at Kosta's Cove. At the annual Gala on April 11, Wayne Boudreau presented the cheque to Parkland volunteer Christine Piltz.

The Parkland Community Association (PCA) endeavors to enhance the quality of life for residents in the Parkland-Moose Heights area through community development/improvement projects and programs. PCA works with the Parkland Recreation Commission under the guidance of the Cariboo Regional District staff to develop, enhance and maintain D.L. 6199, also known as Kosta's Cove Community Park. PCA members are not only area residents but members of the public with an interest in seeing Kosta's Cove Park become an all season facility and be sustained as a great asset to the 10 Mile Lake/Moose Heights neighborhood.

Since 2011 Kosta's Cove Community Park has undergone significant development. Kosta's Cove has been transformed from a public facility with poor access, haphazardly maintained by volunteers, to one that now boasts a properly accessible parking lot, an information kiosk, an equipment storage/maintenance container, picnic area, bear proof garbage bins, wheelchair accessible picnic tables/outhouse and a Low Mobility Wilderness Trail (newly completed in the Fall of 2014.) The planned multi-purpose shelter will be constructed on the lakeside of Kosta's Cove Community Park, North end of 10 Mile Lake and will be used year round to accommodate events, activities and programs.
