

City Councillor Ron Paull presents grant to Bernice Heinzelman from QDCAC

\$1000 to Quesnel & District Community Arts Council for a multimedia projector and screen

Enhancing the Arts

Funded in part by the Donald & Jean George Family Fund, the Quesnel & District Community Arts Council (QDCAC) received \$1000 for a multimedia projector and screen. At the annual Gala on April 11, Councillor Ron Paul presented the cheque to QDCAC volunteer Bernice Heinzelman.

The mandate of QDCAC is to initiate, promote and develop excellence and understanding for the arts, culture and heritage in our community and to engage the community in artistic expression. QDCAC strives to enhance the arts thus strengthening the arts community. Members are artists, musicians, writers, farmers and persons interested in the arts. It is well documented that the more arts in the community, the healthier the community.

The new projector will be used to increase the visibility of the QDCAC and its members through presentations to the public. Power point presentations will also be used on their website and on Facebook. The projector will also be used in workshops, allowing members to use multi-media technology to enhance their programs.

More information on the Quesnel & District Community Arts Council and the 11 organizations that operate under its umbrella can be found at www.quesnelarts.ca
